1773 sq. ft.

Living Area

Primary Bath

1st Floorplan

If your lot is accommodating for a split-level home, the Richmond is a home that lives large on the main floor with the capabilities of finishing the lower level. A wide entry, the landing can take you upstairs, downstairs, or directly to the garage. The kitchen is large with a corner walk-in pantry and loads of countertop. The door to the rear deck is conveniently located to be accessible from living, dining, and kitchen. Perfect for entertaining! The bedrooms are ample sized, too.
